mm yes you know the drill.

gimme a ship and i shall rate it and give my opinion on it.

it can be ANY SHIP

AT ALL.

okay let's get onto it lol

Puddleshine x Alderheart

Mhm. Yes, indeed. I ship it! You?

Why? Well, in The Raging Storm, just the whole thing about Puddleshine getting super sick and Alderheart not leaving his side? I mean, the man even tried giving Puddleboi DEATHBERRIES which was a HUGE risk, and Puddle just LET HIM DO IT. Rather gay, if I do say so myself.

I personally think that Puddleshine is pan and Alderheart is a shy lil gay man. Like Ravenpaw. But more depressed.

In all honesty, though, I used to not understand the ship until I read The Raging Storm.. then, I was like, "Wow, yeah I get it now.."

10/10. One of my OTPs.

Bramblestar x Squirrelflight

okay, there are SO many things wrong with this ship.

Brambleclawstar is so abusive towards Squilf. Let's start at the top—everything Squilf does, he hates! He just tries to start arguments with Squilf every time he sees her. But then again, maybe their relationship will get better? Or maybe we should give up on it.

-10/10

Hawkfrost x Ivypool

no. Hawkfrost is completely manipulative and toxic, and any ship he has is abusive. for example, Hawk x Ivy. Hawkfrost manipulated Ivypool into thinking she was being trained by StarClan and not the Dark Forest. and it is cannon that he loved her and she loved him. and, we can't forget the age difference. i don't think any ship can work out if Hawk is involved, nevermind Hawk and Ivy.

-300/10.
